WELCOME TO

VIEWSPACE

The program playing here is one of **many short videos** about our planet, solar system, galaxy, and universe.

Made using images and data from NASA's telescopes, satellites, and other missions, ViewSpace provides a **glimpse into the universe**: what it is made of, how it works, how it has changed over time, and how we know what we know.

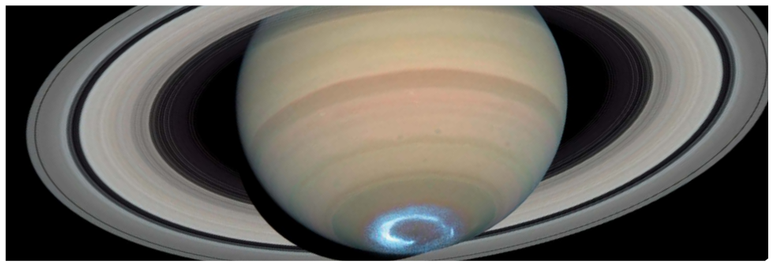
Regularly updated with **fresh content**, ViewSpace opens a window into the latest and greatest NASA science.

GALAXY AND THE UNIVERSE

What causes cosmic explosions?

SOLAR SYSTEM

Why do some planets have rings?



EARTH

How has Earth's surface changed over time?
